For: A NAVIGATION SYSTEM AND A MEMORY MEDIUM

AMENDMENT UNDER 37 C.F.R. §1.111

Director of the U.S. Patent and Trademark Office  
Washington, D.C. 20231

RECEIVED

DEC 19 2001

GROUP 3600

Sir:

In reply to the Office Action mailed August 15, 2001, the period for reply being extended by the Petition for Extension of Extension Time filed herewith, please amend the above-identified application as follows.

IN THE SPECIFICATION:

Page 14, lines 1-10, delete current paragraph and insert therefor:

Figure 13 is a flowchart describing display screens of selected categories, wherein a list of categories is obtained by selecting an area. For example, the area 1 shows BBB, DDD, EEE, FFF and the area 2 shows AAA, BBB, GGG, HHH. Thus, only existing categories are displayed in respective lists. In area designated searches according to the previous method, even categories with no register points are displayed in a list in some areas since fixed categories common to each area are displayed in a list (see Fig. 15). However, this problem is avoided in the invention. Further, all the categories may be displayed by making a distinction between the presence and absence of the register points, in addition to displaying only categories with register points in a list.
